As part of the ongoing renovation and expansion of the Three Village Inn Hotel & Spa, plans are under way to build a large and elegant day spa facility, which will fit nicely into this prestigious hotel. Currently, however, what's offered is a small selection of spa treatments, including massages, in a cozy private area of the hotel's main historic building. In-room massages are also available upon request. The spa treatments offered are mainly European in origin, and include massages, body wraps, facials, and body scrubs. This hotel hosts many weddings, and thus offers a wide range of spa services for brides and bridal parties.
