THE DAY & DESIGN. Reflecting their creative personalities and the festive mood of their New Year's Eve wedding, Lianne and Brendan juxtaposed a subtle spectrum of winter neutrals—think shimmering champagne and chic taupe tones—with the opulence of peacock feathers. While an atmosphere of luxury came through in every aspect of the decor, it was also important to the couple that their celebration was warm and inviting. “Rather than feeling like a catering hall, it felt as though you were walking into someone’s home,” Lianne explains.
